

Google Chrome Auto-Fill

Removal Guide

Due to a recent change from Google Chrome, your DAISEY username may now appear in some of the search fields within DAISEY. This causes DAISEY to think that you are searching for something (i.e, your username) causing no caregivers or children to appear. Follow the steps listed below to resolve this issue.

- 1. Go to the Google Chrome menu in the upper right-hand corner.
- 2. Click on settings

New tab				Ctrl+T
New windo	w			Ctrl+N
New incogr	nito wind	low	Ctrl+S	hift+N
History				×
Downloads				Ctrl+J
Bookmarks				+
Zoom	-	90%	+	
Print				Ctrl+P
Cast				
Find				Ctrl+F
More tools				•
Edit	Cut	C	ору	Paste
Settings				
Help	3			•
Exit				

3. Click on the Passwords button in the Autofill section.

Autofill		
07	Passwords	•
	Payment methods	•
9	Addresses and more	•

4. Under saved passwords locate your daisey.cete.us saved password.

Saved Passwords				:
Website	Username	Password		
🗅 daisey.cete.us	*********		Ø	:

5. Click on the three vertical dots on the right-hand side, then click remove.

Saved Passwords			
Website	Username	Password	
daisey.cete.us			Details
			Remove
Never Saved			Q

6. When Chrome asks you to save your password again, click never.

	0
Save	Never
	Save

This should now prevent your email address from auto-filling in the DAISEY search grids.

Please note that following these steps will also remove your saved password for DAISEY in chrome. This means you will need to enter your password when you login to DAISEY. If you would like your password saved in browser and would like DAISEY to function normally, we would encourage you to utilize <u>Mozilla Firefox</u> as this autofill issue is only related to Google Chrome.
